PROFESSIONAL SUMMARY

Motivated and enthusiastic Information Technology undergraduate seeking an entry-level Software Developer or GenAI Developer position. Skilled in programming, problem-solving, backend development, and AI-driven applications, with hands-on experience building a Retrieval-Augmented Generation (RAG) system. Eager to apply my technical skills to real-world projects while continuously learning and contributing to organizational growth.

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript, React JS

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Microsoft Excel

Gen AI: LLMs, RAG, Prompt Engineering, Embeddings, Semantic Search, Vector Search, AI Agents

Frameworks & APIs: LangChain, FastAPI, LiteLLM, Gemini API, OpenAI API

Vector Databases: FAISS, ChromaDB

AI Automation Tools: n8n, Make

AI Tools: ChatGPT, Claude, Google Gemini, GitHub Copilot

Core Subjects: DBMS, Operating Systems, Computer Networks, OOPs using Java

Soft Skills: Problem Solving, Team Collaboration, Leadership, Time Management

PROJECTS

Construction Knowledge System Using RAG

Python | FastAPI | LiteLLM | FAISS | Sentence Transformers | REST API | Git | GitHub

- Implemented document processing, text chunking, embeddings, and semantic search using FAISS.
- Built a FastAPI backend to integrate document retrieval with LLM-generated responses.
- Implemented semantic retrieval to provide context-aware LLM responses from construction documents.

AR – Based Indoor Navigation System

ARCore | Wi-Fi RSSI | KNN | Dijkstra | NavMesh | Android | Spatial Audio | Computer Vision

- Designed an indoor navigation system for visually impaired users.
- Implemented Wi-Fi RSSI-based localization.
- Implemented real-time AR route guidance.
- Developed optimal indoor pathfinding algorithms.
- Enhanced accessibility through AR and audio.

Student Achievement Tracking System

Java | MySQL | HTML | CSS

- Developed a centralized student performance management system.
- Automated grading analysis and performance tracking.
- Created dashboards for faculty to monitor student progress.
- Improved tracking efficiency and academic decision-making.

EDUCATION

B. Tech – Information Technology

Sri Manakula Vinayagar Engineering College | 2022 – 2026

CGPA: 8.0/10

CERTIFICATIONS

- NPTEL – Software Testing, Internet of Things (IoT)
- Spring Boot & MongoDB Certification — Infosys
- CISCO Packet Tracer using IoT System (Workshop)
- Anthropic Skilljar (Claude 101, Claude Code 101, Claude Cowork, Claude Code)
